Azle city council selects Community Waste Disposal for garbage and recycling services

WHO: [Community Waste Disposal](#) (CWD) - largest privately owned waste management company in the DFW metroplex.

WHAT: Awarded [City of Azle's](#) garbage & recycling hauling contract

DETAILS: On November 7, the Azle City Council awarded a five-year exclusive franchise agreement to Community Waste Disposal for garbage and recycling services in the city.

Effective February 1, 2007, CWD will provide twice-a-week garbage collection, once-a-week collection of recyclables and once-a-month brush & bulky waste collection.

According to Cheryl Brock, CWD's marketing and municipal sales manager, Azle selected CWD due to " great references and great price."

"We are looking forward to providing first-class customer services to the residents of Azle," said CWD President Greg Roemer. "Beginning in February, residents will experience a marked boost in the level of services from our crews."

Recycling bins will be delivered to residents January 29-31. For commercial customers, CWD containers will be delivered January 22-31.

The Azle contract is CWD's first exclusive contract in Tarrant County. Azle is located 14 miles northwest of Fort Worth.
